

# SÜTAŞ SUSTAINABILITY PERFORMANCE IN 2022

## ENVIRONMENTAL SUSTAINABILITY

### Climate Change and Carbon Management

We meet

**80%**

of our production plants' energy needs through the renewable energy produced from our wastes.

2025 Goal: **100%**  
renewable energy use

We will further increase our renewable energy production with solar panels placed on the roofs of our plants and dairy factories.

2025 Goal: **25 MWp**

We resumed our energy efficiency efforts, which had fallen short of our goals due to the Bingöl investment.

2025 Goal: **15% increase**

### Sustainable and Regenerative Agriculture

We introduced

**43,000 tons**

of organic matter into our fields in 2022.

2025 Goal: **50,000**  
tons

### Waste Management

We reduced the amount of plastic in our packaging.

**153.5 tons**

2025 Goal: **1,500**  
Total  
tons

### Water Management

We stepped up our water efficiency efforts, which had fallen short of our goals due to the Bingöl investment.

2025 Goal: **15% increase**

### Sustainable Dairy Farming

We maintain our agricultural R&D efforts to breed high-yield dairy cattle adapted to our country's conditions.

2025 Goal: **Completion**

We updated the **Animal Health Certificates and EU Export Health Certificates** for all Sütas farms.

2025 Goal: **Follow up on and implement EU legislation on animal welfare**

# SÜTAŞ SUSTAINABILITY PERFORMANCE IN 2022

## HEALTH AND HAPPINESS OF PEOPLE

### Consumer Health and Wellness

We developed Honey Milk and 1L Vitamin-D enriched Chocolate Milk to promote healthier dietary choices among our consumers.

2025 Goal:

**15** new products

The rate of our packaging content containing healthy nutrition and information

**32%**

2025 Goal:

**50%**

### Food Security

Rate of suppliers holding a Global Food Safety certificate.

**76%**

2025 Goal:

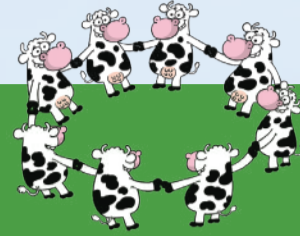

**75%**

# SÜTAŞ SUSTAINABILITY PERFORMANCE IN 2022

## DEVELOPMENT AND PROSPERITY OF SOCIETY

### Socioeconomic Contributions

Milk yield increase of  
dairy farmers who  
implemented our  
recommended practices

**3%**

2025 Goal:

**8%**

### Contributions to the Development of the Sector

A total of  
**19,510**  
dairy farmers  
received  
sustainable  
dairy farming training.

2025 Goal:

**23,000**  
dairy farmers

### Employment and Development

Number of  
suggestions  
focused on  
sustainability

**3,358**

2025 Goal:

**2,500**

### Occupational Health and Safety

Lost-time  
Incident  
frequency rate

**12.60%**

2025 Goal:

**<5%**
