

SÜTAŞ SUSTAINABILITY PERFORMANCE IN 2021

HEALTH AND HAPPINESS OF PEOPLE

Consumer Health and Wellness

We developed probiotic-added kefir to help consumers maintain a healthy diet.

Goal for 2025:
15 new products

Rate of our products with healthy diet and informative content on packaging:
25%

Goal for 2025:
50%

Food Safety

Rate of suppliers with a Global Food Safety certificate:
30%

Goal for 2025:
75%

Employment and Development

Number of suggestions focusing on sustainability:
1.452

Goal for 2025:
2.500

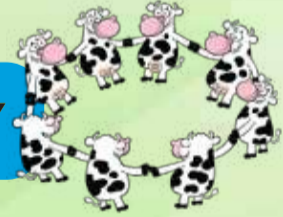

Occupational Health and Safety

The lost time injury frequency rate
12,05%

Goal for 2025:
<5%

DEVELOPMENT AND PROSPERITY OF SOCIETY

Socio-economic Contributions

Increase in milk yield of cooperated farmers
6,3%

Goal for 2025:
8%

Contributions to the Development of the Sector

A total of
19.460
producers received sustainable dairy farming training.

Goal for 2025:
23.000
producers

SÜTAŞ SUSTAINABILITY PERFORMANCE IN 2021

ENVIRONMENTAL SUSTAINABILITY

Climate Change

We meet

80 percent,

of our production plants' energy needs through the renewable energy produced from our wastes.

Goal for 2025:

100%

renewable energy use

We will increase renewable energy production by raising SPP investment goal for our facilities from 10 MW to 25 MW.

Goal for 2025:

25 MW

Waste Management

We reduced the amount of plastic used in our packaging by

427 metric tons.

Goal for 2025:

1.500 metric tons.

Soil, Water, Energy Efficiency

We introduced

41,515 metric ton

of organic matter into our fields in 2021.

Goal for 2025:

50,000 metric tons

We improved our water use efficiency by

6 percent.

Goal for 2025:

15% increase

We accelerated our energy efficiency efforts, which had fallen short of our goals given the pandemic measures and the Bingöl investment.

Goal for 2025:

15% increase

Sustainable Dairy Farming

We maintain our agricultural R&D efforts to raise productive animal breeds adapted to our country's conditions.

Goal for 2025:

Completion of efforts

We updated our "Free from Disease" and "EU-approved" farm certificates.

Goal for 2025:

Follow up and implement EU legislation on animal welfare
